The fi360 Fiduciary Score® is a peer percentile ranking of an investment against a set of quantitative due diligence criteria selected to reflect prudent fiduciary management. The criteria include total returns, risk-adjusted returns, expenses, and other portfolio statistics. Investments are ranked according to their ability to meet due diligence criteria on a monthly basis. The rank becomes the fi360 Fiduciary Score. The fi360 Fiduciary Score Average is a one-, three-, five-, or ten-year rolling average of an investment's Fiduciary Score. The fi360 Fiduciary Score represents a suggested course of action and is not intended, nor should it be used, as the sole source of information for reaching an investment decision. Morningstar Rating™ in the Short Term Bond Category

3 Year ★★★★★ (5 star)  
Overall ★★★★★ (4 star)  
476 funds in category

As of March 31, 2019, the Fund's Institutional share received a 5-star rating in the 3 yr time frame and a 4-star Overall rating in the Short Term Bond category.

The Morningstar Rating for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life sub accounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The Fund had the following ratings as of 3/31/19, respectively: (1) for APIMX: 3 yr, 5 stars; 5 yr, 3 stars; Overall, 4 stars; (2) for AFMMX: 3 yr, 4 stars; 5 yr, 1 stars; Overall, 2 stars; (3) APIBX: 3 yr, 5 stars; 5 yr, 3 stars; Overall, 4 stars. The number of funds in each respective category were: 3 yr, 476; 5 yr, 415; Overall, 476. The Fund does not have a 10 year Morningstar rating due to a strategy change on 12/20/2016.
