The performance quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling 1-800-544-6060.

Important Disclosures

You should carefully consider the investment objectives, potential risks, management fees, charges and expenses of the Fund before investing. The Fund's prospectus contains this information and other information about the Fund and should be read carefully before investing. You may obtain a current copy of the Fund's prospectus by calling 800-544-6060.

Per the most recent prospectus, Fund total operating expense ratios are: Class A, 2.06%; Class L, 2.81%; Institutional Class, 1.81% and Fund adjusted annual operating expense ratios are: Class A, 1.38%, Class L, 2.13%, Institutional Class, 1.13%. The adjusted annual expense ratio takes into account contractual management fee waivers that are in effect until January 31, 2021.

Investing involves risk, including loss of principal. There is no guarantee that this, or any investment strategy, will succeed. Small and mid-cap

investing involves greater risk not associated with investing in more established companies, such as greater price volatility, business risk, less liquidity and increased competitive threat.

The Russell Midcap Index is a market capitalization-weighted index that measures the performance of the 800 smallest companies in the Russell 1000 Index. You cannot invest directly in an index.

Glossary of Terms

TTM P/E – Trailing Twelve Month Price to Earnings is calculated by taking the current stock price and dividing it by the trailing earnings per share for the past 12 months.

NTM P/E – Next Twelve Months Price to Earnings is a measure of the price to earnings ratio using forecasted earnings for the P/E calculation.

P/BK – Price to Book ratio is used to compare a stock's market value to its book value.

P/CF – Price to cash flow ratio of a stock's price to its cash flow per share; indicator of a stock's valuation.

P/S – Price to sales is a valuation ratio that compares a company's stock price to its revenues.

Weighted Market Cap – a stock market index weighted by the market capitalization of each stock in the index.

Median Market Cap – the midpoint of market capitalization (market price multiplied by the number of shares outstanding) of the stocks in a portfolio.
